

Affordable IP Voice Communications Platform

DEPENDABLE

We designed the SOHO IP PBX for reliability and performance.

With an Intel™ based embedded motherboard and redundant storage you never have to worry about losing your data.

CUSTOMIZABLE

Auto-Attendant, Music-on-Hold, Follow-Me, Voicemail – these are just a few of the many features the SOHO IP PBX delivers to meet your business needs.

FLEXIBLE

The SOHO IP PBX supports a wide variety of connections. From traditional PRI and POTS lines to more modern SIP and IAX trunks.

UPGRADEABLE

With dual full length expansion slots, and multiple USB Ports you will have plenty of room to grow.

AFFORDABLE

The SOHO IP PBX helps small businesses meet their communications needs at an affordable price without skimping on the features.

The SOHO IP Phone System

provides a flexible and dependable IP voice communications platform at an affordable price.

With its robust set of features and simplified management this PBX is geared to meet the demands of small businesses.
